

Directions

Overview of the route:

Coming from the Airport please turn right at the end of the airport area (①) and follow the road until you reach the bay of Garitsa (see map below). The taxis normally take a different route but that would be more difficult for you. When you reach the bay of Garitsa turn left (②).

Now just follow the road and drive along the sea around Kerkyra (Corfu Town). On your way you can already throw a glance at the two forts in Kerkyra. You will pass the old part of the town and will automatically come by the harbour (ⓐ) if you stay on this road.

Coming from the harbour (by ferry) please make a right turn when you reach the harbour exit.

From here the directions are the same no matter if you come by plane or ferry.

Please follow the road along the sea in direction to „Paleokastritsa“. Approximately after 14,5 km you have to turn right at a junction (ⓑ) (see map below) over a bridge in direction to „Sidari“ and „Agios Georgios“. Now please follow the road for a while.

When you leave the village „Skripero“ driving uphill there will be a lot of serpentes before you reach the „Troubeta“ pass and leave the village „Troumbetas“. Just follow the road. Now the road is going downhill in serpentes. At the next junction slightly keep to the left in direction to „Agios Georgios“.

Approximately 1,5 km after this junction you come to a junction before a house wall (5). Please turn left here in direction to „ Pagi“, „Prinilas“, „Agios Georgios Beach“. Following the road (serpentes) you pass the village „Vatonies“ and reach the village „Pagi“.

Right at the city limit of Pagi please turn right (Ⓢ) (downhill) in direction to „Agios Georgios Beach” and follow the road.

Stathis House is located on the left side of the road approximately 700 meters after you have turned downhill in the direction to "Agios Georgios Beach". You access the property via its own private driveway. The entrance to the driveway to Stathis House is shown on the photo below. There is a white and blue sign saying "Stathis House" on the wall on the right side of the entrance to the driveway. Drive up the driveway to the house. You can also park your car near the house.
